*\*Note Rush Charges Apply for any project that requires 20+ images in less than 5 business days.  
Great Product shots require time and hard work!*

Products that are more difficult to photograph can cost more due to the extra time involved in lighting and post processing. Items with reflective surfaces for example (Jewellery, Glass, Chrome, Metal) require special lighting techniques which takes a bit more time.

**Product on Creative Background (and on location)**

**For projects such as: Magazine Ads and Promotional Features (print or web)**

Note: Most photos that only require a simple custom background or creative lighting can be charged at the prices shown in the previous chart but any special travelling arrangements or special requests by the client will be charged accordingly.
